

John M. Wirtz

Business Unit Manager, Electrical Transportation Infrastructure Eaton

PHOTO

John Wirtz was appointed Business Unit Manager, Electrical Transportation Infrastructure, for Eaton in May 2011.

Wirtz is responsible for leading Eaton's global initiatives to develop electrical vehicle supply equipment (EVSE) and advance electric transportation infrastructure.

Prior to this role, Wirtz was the plant manager, Electrical Assemblies Division, for Eaton's Asheville, North Carolina facility.

Wirtz has approximately 30 years of experience in the electrical industry. He joined Eaton in 2001 and, during his tenure, has held leadership positions in both operational and product line assignments.

Prior to Eaton, Wirtz held various roles of increasing responsibility for General Electric, Schneider Electric, and Emerson Electric that included sales, marketing, operations, operational excellence, and channel and business development positions.

Wirtz holds an MBA degree from Xavier University, Ohio, and a Bachelor of Science degree in Mechanical Engineering Technology from Purdue University, Indiana.

Eaton is a diversified power management company providing energy-efficient solutions that help our customers effectively manage electrical, hydraulic and mechanical power. A global technology leader, Eaton acquired Cooper Industries plc in November 2012. The 2012 revenue of the combined companies was \$21.8 billion on a pro forma basis. Eaton has approximately 103,000 employees and sells products to customers in more than 175 countries. For more information, visit www.eaton.com.
